

## Anglican Church of St Heliers Bay and Glendowie

---

St Philip's is committed to working together with all those who come onto the St Philip's site to provide a safe and healthy environment.

Health and safety is a shared responsibility and we are all responsible for the safety and wellbeing of ourselves, our fellow parishioners, tenants, informal users of St Philip's premises, contractors and others. We achieve this by following procedures, reporting and investigating any accidents/incidents that occur and reporting new hazards and risks.

St Philip's will proactively identify and seek to manage risks and take all practicable steps to eliminate, isolate or minimise the potential of harm to people and to our environment.

We will take all practicable steps to comply with applicable health and safety legislation and standards and strive to make our premises as safe and healthy as possible.

This Policy is supported by policies and procedures laid out in the Health and Safety Manual.

Signed on behalf of the Vestry
